## Learning activity description

This activity follows directly from the visit to *Road to Zero*. Through the activity, students have the opportunity to reflect on: their video (final product); the choices they made when making the road safety video, including their messaging; and how they worked together in a team.

The following worksheet is divided into three sections, each focusing on a different aspect of reflection: their video, messaging and working together.

The activity could be undertaken in small groups of students who worked together on producing their video and/or individually.
